An illustration of 50 years of social administration & social work in Greenland

By 2018, Greenland has officially had an independent controlled social and labour administration for 50 years.

The realization in 1968 took place 12 years before the signing of the Greenlandic home rule act in 1979.

The taking over of the social and labour administration became a historical turning point for the introduction of a more organized and democratic social welfare system.
